Professional Summary

Software Developer with 1 year of hands-on experience in embedded software development and embedded systems integration. Proficient in C, C++, Java. Passionate about building and contributing to impactful software solutions.

Technical Skills

- **Languages:** C, C++, Java
 - **Operating System :** Linux, Linux Kernel module and device driver development
 - **Networking :** Linux network interface management, TCP/IP, DHCP, DNS, MAC configuration
 - **Mobile Development:** Firebase, Android Studio
 - **Web Technologies:** HTML, CSS, Tailwind CSS, JavaScript
 - **Databases:** MongoDB, MySQL
 - **Tools:** Git, GitHub, Visual Studio Code, meld
-

Professional Experience

Software Engineer

iTAS Innovations, Bengaluru

Aug 2024 – Present

- Working on ARM-based Allwinner T527 embedded boards for embedded product development.
- Developing and integrating kernel modules for Fuel Gauge monitoring systems via I2C interface.
- Interfacing ambient light sensors and implementing GPIO-based LED control using device drivers.
- Assisted in integrating an ESP Wi-Fi module with the T527 board, including development of a user-space application to scan, connect to Wi-Fi networks, configure network status, assign MAC addresses, and initiate DHCP clients for dynamic IP allocation.
- Collaborated with firmware and hardware teams for board bring-up, real-time data capture, and system log analysis.

Web Development Intern

Swizosoft, Mangaluru

Jan 2024 – Feb 2024

- Completed a training program covering MongoDB, Express.js, React.js, and Node.js.
 - Developed responsive web interfaces using HTML, CSS, and JavaScript.
-

Academic Projects

Cab Booking System

Java, JDBC, MySQL

- Developed a Java-based desktop application for booking and managing cabs.
- Implemented admin controls for ride history, user data, and transaction management.

Spotify Clone

HTML, CSS, JavaScript

- Built a front-end web application emulating Spotify's music interface.
- Included features like playlist browsing and song previews.

Sahyadri Club Management Android App

Java, Firebase, Android Studio

- Created an app to manage student club activities at college.
 - Enabled real-time event notifications and streamlined student registrations.
-

Education

Bachelor of Engineering in Computer Science & Engineering

Sahyadri College of Engineering and Management, Mangaluru

Graduated: Sep 2024

Extracurricular Activities

Volunteer and mentor for coding workshops and community tech events.
